#### A GREAT ART COLLECTION.

Great Success of the Cathedral Bazaar. The Bazaar for the improvement fund of the Holy Name Cathedral, to begin on May 1st, in the School Hall, Chicago avenue and Cass street, promises to be a great success. All the ladies of the parish have entered into the work in a manner that cannot fail to bring the most satisfactory results. The parish has been divided into five districts, each district being presided over by one of the Fathers of the Cathedral. This has stirred up a generous competi-

Healy, known on both sides of the Atlantic as the "American Titian." Mr. Healy has made a painting specially for the bazar. This work, which he proudly looks upon as a masterpiece, is a copy from the original in his possession of the "Spanish Student," credited to Velasquez. Critics have declared it one of Mr. Healy's best productions. The picture is now on exhibition in Mr. Healy's studio, 268 East Huron street, and can be seen by the public every Thursday, to the opening of

Some objection is made to the cir-

SEATTLE has a manufacturing future before it second to none on the Pacific Coast. It has natural mineral gion of Pennsylvania with proper development; it has an available timber supply that is as near inexhaustible as any on the continent; cheap fuel is furnished by the numerous coal deposits within easy reach; her harbor, affords safe and ample accommodations for shipping, and her rail transportation facilities are great and increasing. In a short time another and most important factor will be added to these advantages. A project is now on foot to utilize the enormous power of the Snoqualmie Falls, located about twenty-two miles from the city. It is estimated that by converting this natural force into electricity and conveying it to Seattle will be made available at much less than 50 per cent. of the present cost.
